## PROJECTS

### DevMarket | <https://www.devmarket.pro> | Dec 2024 - May 2025

- Implemented user-friendly onboarding and profile matching for all users, with a **65-70%** onboarding completion rate for **240+** active users.
- Integrated Stripe for payment processing, converting **2-3%** of free users into paid ones.
- Leveraged React Query to handle interactions with user profiles smoothly, resulting in **20+** user testimonials.

### Interactive Blog Platform | <https://www.danielfullstack.com/blog> | Sep 2024 - Dec 2024

- Architected a custom user comments system for my blog, implementing robust CRUD functionality and designing an intuitive user interface, resulting in a **20%** increase in user engagement.
- Deployed my site to AWS CloudFront, reducing hosting costs by **20-30%** compared to Vercel.
- Engineered a CI/CD pipeline using GitHub Actions for automated deployments.
- Implemented dynamic metadata in NextJS to enhance SEO, optimising content for search engines and increasing site traffic by **15%**.

### GymSimple | <https://github.com/DanielCraciunGitHub/gymsimple> | Jun 2025 - Aug 2025

- Built a React Native mobile app that creates complex, hands-free workout timer flows based on the user's workout plan.
- Used the Google Play Console to prepare a production-ready Expo build for customers to use.
- Developed an intuitive UI that simplifies exercise creation, session tracking, and timer playback for users.

## WORK EXPERIENCE

### Full-Stack Engineer Intern | Synergix Ltd | Feb 2025 - Jul 2025

- Integrated Finexer Open Banking APIs to enable real-time financial data fetching, leveraging Cypress e2e testing to ensure the business logic is robust.
- Implemented advanced form logic for financial data entry, reducing user input errors and form abandonment rates.
- Architected a complex Prisma schema with **25+** data models, serving as the backbone for the entire application backend and third-party integrations.

## EDUCATION

### University of Southampton | BSc Computer Science | Oct 2023 - Jun 2026

Expected Grade: First Class Honours

## SKILLS

**Full Stack:** Nextjs | TypeScript | Java | Python | JavaScript

**Frontend:** React | Tailwind | HTML | CSS | UI | UX

**Backend:** Node | Express | Jest | Cypress | SQL | NoSQL | Prisma

**Cloud:** AWS | Azure | Serverless

**Extra:** Git | CI | Docker | Bash | Markdown | Mobile
